

Fatemeh kashiri

Motion designer

A bout me:

Hi my name is Fatemeh but everybody calls me MehrAvar.

I was born on March 23rd 1995 in Sari, a small but beautiful northern city of Iran. I have studied Architecture in University of Mazandaran.

After graduating, due to my love for art in general and graphic design and animation in particular, I attended motion graphic courses at inverse school to deepen my understanding of the field and strengthen my techniques. I believe that the horizons of art are limitless, so is my passion for experiencing various aspects of it. But my expertise lies in the motion design field.
